

【Temporally measure on garbage bags is closed on August 31.】

We are returning to the standa measure of using Kashiwa City designated garbage bags. (It applies to both Kashiwa area and Shonan area.)

The temporally measure on garbage bags is closed on Monday, August 31.

For situation of supply of Kashiwa City designated garbage bags (for combustibile and plastic containers and packaging) is improving, we close the temporally measure on Monday, August 31.

Please be reminded to use Kashiwa City designated garbage bags for disposing garbage from Tuesday, September 1 and onward.

Combustible waste

Plastic containers and packaging

↑ Kashiwa City designated garbage bags ↑

Any remaining unused plastic bags (transparent and translucent plastic bags) to replace the designated bags can be used in following occasions.

They can be used when disposing any non-combustible waste.

In Kashiwa area: they can be used for disposing non-combustible waste and toxic waste.

In Shonan area: they can be used for disposing non-combustible, recyclables, hazardous and toxic waste.

～Reminders～

Please be reminded that any combustibile and plastic containers and packaging garbage disposed in bags other than the Kashiwa City designated garbage bags will not collected from the collection points.

We appreciate your understanding and cooperation for refraining from excessive purchasing and excessive stockpiling of Kashiwa City designated garbage bags.
